Webinar application

Webinars allow a large number of participants to take part as viewers. The edudip next webinar room is mainly used for online seminars and lectures, customer and sales presentations, employee training courses and public events.

Meeting application

The meeting room was designed for spontaneous video conferences, where all participants have the opportunity to share their screens and have video and audio transmitted. The edudip next meeting room is mainly used for customer-oriented consultations, spontaneous team meetings or interactive individual training courses.

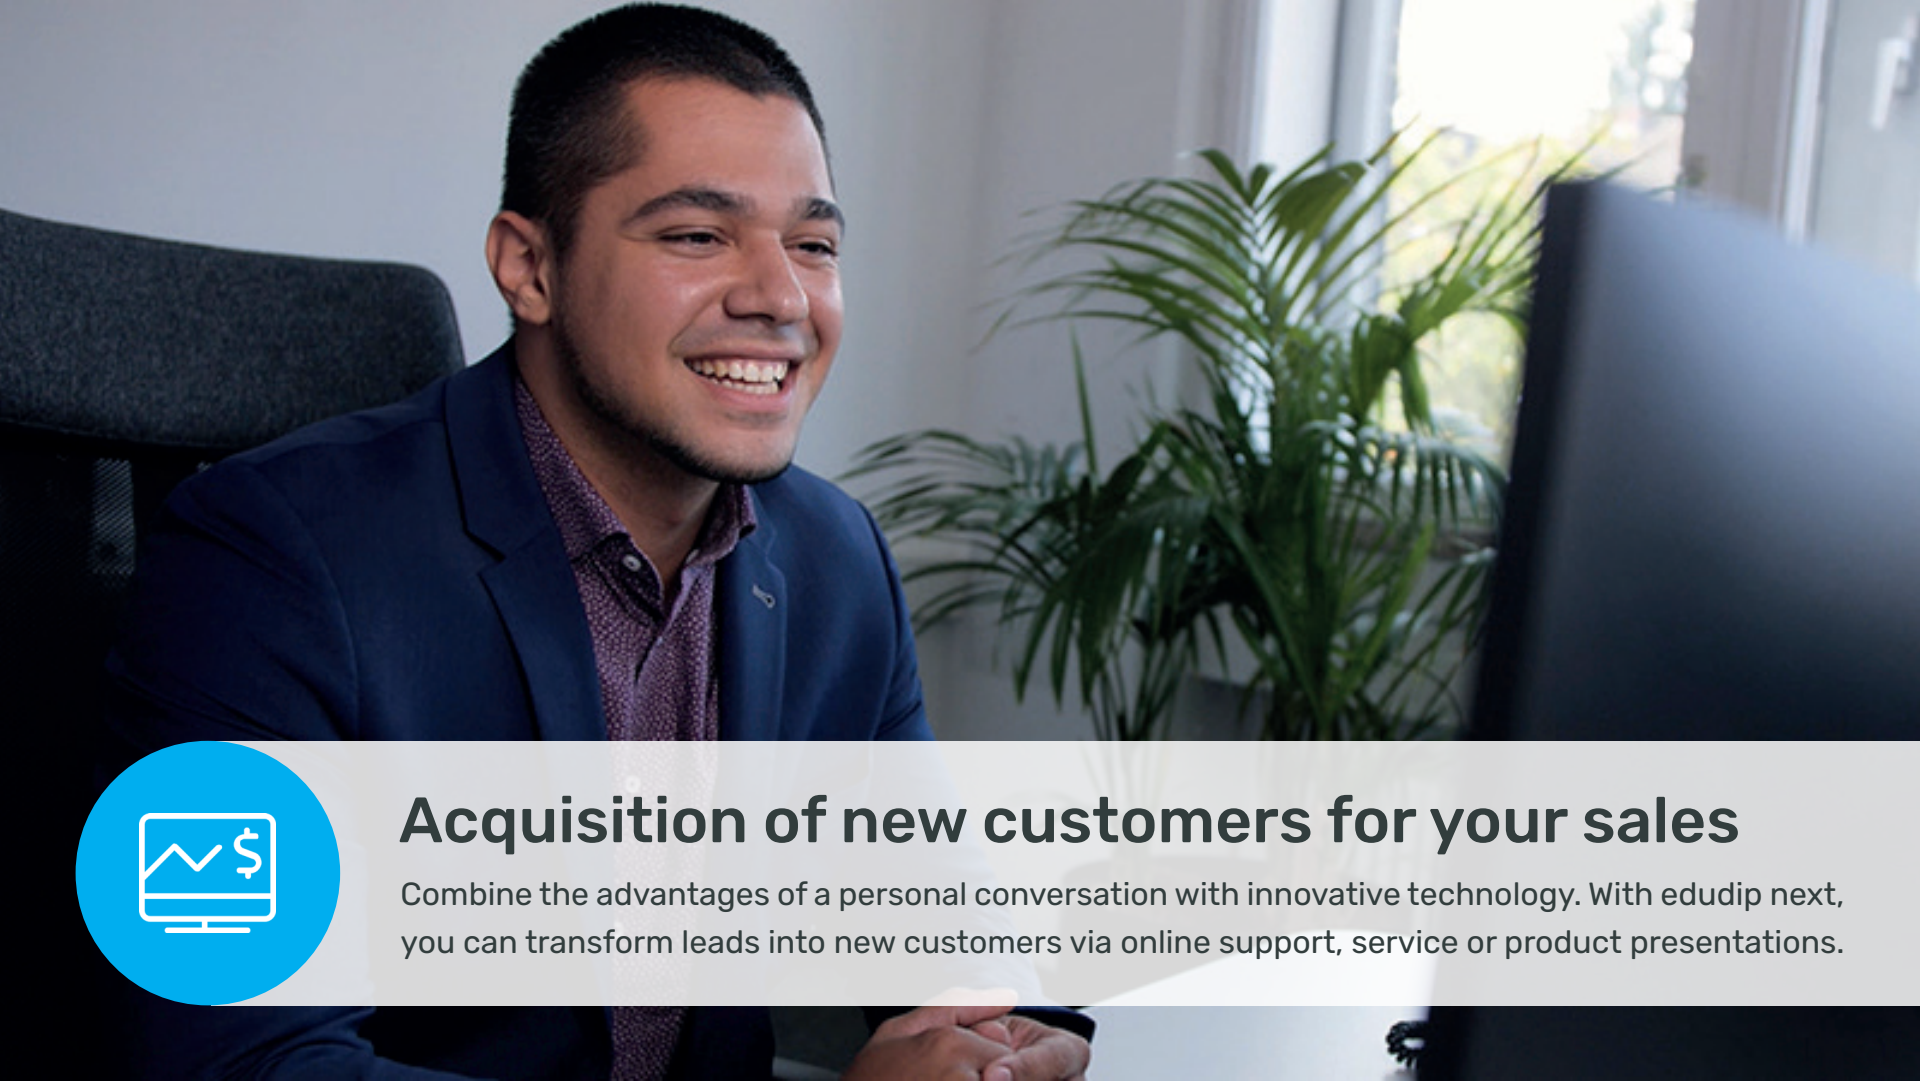
Reach your target group

There are numerous possibilities to use edudip!

- Video conferences for your corporate communication
- Acquisition of new customers for your sales
- Recruiting tool for your HR department
- Blended learning for educational companies
- Lead generation for your marketing

Video conferences for your corporate communication

Digitise your corporate communication. Organise virtual meetings with edudip next and network your team regardless of location with the best video and audio quality.



Acquisition of new customers for your sales

Combine the advantages of a personal conversation with innovative technology. With edudip next, you can transform leads into new customers via online support, service or product presentations.

Recruiting tool for your HR department

Digitise your HR department and use edudip next both as a recruiting tool and for training your employees. Schedule short-term online lectures and training courses.

Blended learning for educational companies

Online seminars as an alternative to presence teaching. Digitise your knowledge transfer and offer your learning participants interactive webinars, group training courses and series of courses.

Lead generation for your marketing

Use the webinar software as a content marketing tool. Reach potential leads by linking your online event via website, newsletter, social media and Adwords.

Save time and resources with edudip next!

DIVERS & AGILE

Organise your daily work with edudip next simply online: Whether lectures, seminars, employee training courses or conversations with customers, hold your virtual presentations in the webinar room or network up to 25 conference participants location-independent in the best video and audio quality.
